ABRIDGEMENT

- 3.7 Years of extensive experience in Software Design, Development, Training, Testing and Maintenance which also includes process and operational level Auditing activities.
- Oracle Certified Java Programmer.
- Oracle Certified Web Component Developer.
- IBM Certified Database Associate -- DB2 9 Fundamentals
- Brainbench Certified in Java, JavaScript, Struts.
- Certified in NCFM (NSE Certification in Financial Markets).
- L0 Certification in Banking & Financial Services from Cognizant Technology Solutions.
- Certified in German and French Languages.
- Active member in various social service committees like "Sai Youth Organization", "OutReach"(Cognizant Initiative making various School adoption programs) and National Social Service at Sathyabama University, Chennai.
- Obtained scholarship from "The Institute of Global Education", United States of America.
- Ensuring my entire team to complete peoplesoft timesheet and Declaration of Security Compliance of Computershare every time.
- Resourceful at maintaining business relationship with clients and customers to achieve quality product and service norms by resolving critical issues.

ACADEMIC CREDENTIALS

<u>Title of the Degree with Branch</u>	<u>College/University</u>	<u>Year of Passing</u>
Master of Business Administration in Operations Management.	Symbiosis University, Pune.	2010
Bachelor of Engineering in Electronics & Telecommunications	Sathyabama University, Chennai with 83%.	2008
Intermediate in Maths, Physics, Chemistry	Board of Intermediate Education, Andhra Pradesh with 92%.	2004
10 th Standard	Secondary School Education, Andhra Pradesh with 81%.	2002

TECHNICAL SKILLS

- ❖ **Programming Languages** : Java/J2ee, SQL, HTML, JavaScript, HTML5, JQUERY, Hibernate, Web Services, Spring, Sybase 365 Mobiliser, Sybase Unwired Platform (SUP 2.1.3), Android, IOS XCODE and MAC instruments.
- ❖ **Systems & Software Packages** : Microsoft Windows 2000/2003/XP/Vista, Microsoft Office, MAC OS
- ❖ **Statistical Tools** : Rad 6.x ,Query Analyzer, Aqua Data Studio,XCode
- ❖ **Web/Application Server** : IBM Web sphere Application 6.X
- ❖ **Java Technology** :jsp,Servlet,Struts,JDBC
- ❖ **Web Technology** :HTML,Java Script
- ❖ **RDBMS** :SQL,DB2
- ❖ **Version Control** :Harvest

AREAS OF EXPERTISE

Technical Analysis

- My role involves in implementing from the requirement gathering phase followed by design, implementation and testing till it goes into production. This also involves writing the test cases and preparing the Impact Analysis documents for each new requirement.
- To develop and deliver the assigned project modules components and phases with high quality with prompt status updates and to maintain healthy work environment and inculcating bonded teamwork with high work ethics.
- As a good team player motivating and showing my excellent analytical and communication skills helpful for fetching more projects.
- Clarifying the client requirements, business needs and project objectives via feedback sessions and client meetings.

Team Management

- Maintaining healthy work environment and inculcating bonded teamwork with high work ethics.
- Conducting training sessions for the team to improve their performance through constant call monitoring and provided feedback on their performance.
- As a lead role also maintaining good relationship and communication with the team members and following/guiding them up with in terms of increasing the productivity.
- As a Team Lead understanding the business and technical requirements and imparting the knowledge of the existing application framework to the new joiners/juniors assigned to me in the team.

CAREER SCAN

- **3.7 Years** of experience and working as Associate-Projects in **Cognizant Technology Solutions** from **June'09 till date**.
- **Holding valid Singapore Business Visa till July 2013.**

PROJECT PROFILE

Cognizant Technology Solutions, Bangalore

Title 1 SYBASE 365 MOBILISER

Objective Developing POC related to Web, Money, Brand Mobiliser of Sybase 365 product which also includes in implementing various used cases helpful in real time.

Technology Java/J2ee, SQL, HTML, JavaScript, HTML5, JQUERY, Hibernate, OSGI(Open Services Gateway Interface),Web Services, SQL Developer, Android, IOS, Sybase Unwired Platform (SUP).

Significant Contribution:

- Actively participated in Sybase 365 training at Singapore and obtained detailed understanding regarding the Sybase 365 product consisting of various Mobiliser modules like the Money Mobiliser, Brand Mobiliser which also contains the Web Felix server part.
- Analyzing and diving deeper into the architecture view of the Sybase 365 use cases which involves the Transfer of Funds, Request Funds, Airtime Topup, Merchant Payments etc, its internal configurations, and the interaction happening between the class files, database, and web services.
- On the Money Mobiliser part, I had done a sample POC (Web based & Android Based) by posting an http post request which internally interacts with the Sybase Transaction Web service. This finally enables the customer to transfer the funds from one account to another using the Unique MSISDN key.
- Exhibited a lot of passion and also constructed a POC which uses the concept of SMS gateway (both for reading as well as sending). The main concept of this use case is enable the customer desire to transfer the money via SMS through his Smart phone. Depending upon the Action present in the message the respective logic invokes and the Mobile Number and the Amount to be transferred will be parsed dynamically and successfully the transfer of funds is completed. And finally as a token of acknowledgement a SMS will be spawned to both Payer and Payee.
- Had done a sample POC (Web based & Android Based) by posting an http post request which internally interacts with the Sybase Transaction Web service. This finally enables the customer to transfer the funds from one account to another using the Unique MSISDN key.
- Had provided some of the valid and real-time use cases which are also helpful to an individual in his/her daily life which are specifically related to the Sybase 365 Mobiliser products.
- Maintaining a constant liaison with the Sybase support team and resolving all the problems/clarifications without any show-stopper.
- Had analyzed and involved in setting up the Sybase 365 product for customization in Windows Environment.

- On the Brand Mobiliser part, I had analyzed the architectural flow of interacting between the backend data base through SMS and understand to the Interactive Application Screen.

Title 2 REAL TIME TRADE in FRESHSTART

Objective To make an automated case creation on the basis of telephone request through application named Freshstart. The application is basically a call center application with in which a user can raise a request to EWF.

Technology Java, Servlet, JSP, WebSphere App Server 6.0, MS SQL Server, Aqua Data Studio

Client Name: Computershare.

Significant Contribution:

- As a developer I had involved in Software Design, Development, Training, Testing and Maintenance which also includes process and operational level Auditing activities.
- As a developer I had developed and delivered the project deliverables with high quality and maintained healthy work environment and inculcating bonded teamwork with high work ethics.
- Identified a major design fault in the calculation part and took corrective action as a Team Lead while working at Computershare.
- Also developed a tool to reduce development effort and eliminate redundancy for adding new customers called "Generic Site", where Customer specific information will be loaded during application start up from customer tables.
- As a good team player maintained a good communication with the offshore team as well as onsite team.
- Took initiation and made myself to take ownership as a sole in charge in maintaining the Process and Quality Excellence as per the Cognizant Policies Operational Activities like involving/preparing Project Deliverable Audits like Project Plan preparation, RTM, Causal Analysis, Impact Analysis, Estimations, Approvals, UTC, Implementation, Management etc and Technical Audits which includes EMMA Configuration setup for Generic Servers and PMD Tool setup etc comprising in many stages of the project execution.

Title 3 COSTBASIS in EWF

Objective EWF (Enterprise Work Flow Management System):A e tracker tool that minimize the paper work and manual efforts in Banking specially in Custodian those who maintains huge number of shares, Bonds.

Technology Java, Servlet, JSP, Struts, WebSphere App Server 6.0, MS SQL Server, Aqua Data Studio

Client Name: Computershare.

Significant Contribution:

- Implementing the functionality to track and provide Cost Basis reporting to shareholders and the Internal Revenue Service (IRS) for shares of stock that were acquired and sold after January 1, 2011.

- Had developed a functionality which interacts between the user input data and backend database system for retrieving the tax information.
- Responsible for creation and implementation of Design (both High Level and Low Level) .
- Adopted professional approach in developing a software tool, which reduces the interaction time between solution verification and development teams, thereby made dollar saving to our client named Computershare and also reducing the turnaround time by 15% for fixing bugs.
- As a process champion I had also given/involved in the Audit Presentations like Process Audit, Technical Audit, Remote Audits (Month wise) in which I had also played in a Crucial Role in the ISO Audit happened this year.

PERSONAL DETAILS

Full Name	K R V B S Sai Pavan Kumar
Father's Name	K N V S N Pradeep Kumar
Date of Birth	12th May 1987
Sex	Male
Marital Status	Single
Nationality	Indian
Languages Known	English, Telugu, Hindi, Tamil, German, French

STRENGTHS

- ❖ **Self Motivated & Faster Learner.**
- ❖ **Ability to work in teams with Challenging personality.**
- ❖ **Sincere and Hard working towards my responsibility.**

DECLARATION

I hereby declare that the above particulars are correct to the best of my knowledge and belief.

Place: Bangalore

Date:

(K R V B S Sai Pavan Kumar)
