### Professional Experience

- Working at **Infosys Limited Chennai** since December 2010.
- Current Role:**Systems Engineer**
- Development, Maintenance & Enhancement of JAVA based Applications for **C Spire** (formerly known as Cellular South) which aims at managing customer relations, sales and facilitating Inventory Management.

### Project Details

#### Project 1:

<b>Project Title</b>	<b>CRM-Point of Sale(POS)</b>
<b>Industry</b>	Communication Media & Entertainment
<b>Client</b>	C Spire
<b>Duration</b>	Dec 2011 - Mar 2013

#### **Project Description:**

This project involved maintenance & enhancement of existing application which is used by sales executives of Client at various stores to manage customer relations. This application enables Client for selling devices & accessories, managing different types of customers like Advance, Post pay, Business Customers & Vendors. It also provides administrators a section to perform several activities like approving a customer, changing credit class of a customer etc.

**Responsibility** : Involved in requirement gathering, development and Unit testing.

<b>Language</b>	: Java
<b>IDE</b>	: Eclipse
<b>Framework</b>	: Spring

**Databases** : Oracle

**Project 2:**

<b>Project Title</b>	<b>Inventory Purchasing System(IPS)</b>
<b>Industry</b>	Communication Media & Entertainment
<b>Client</b>	C Spire
<b>Duration</b>	Dec 2011 - Mar 2013

**Project Description:**

This project involved maintenance & enhancement of existing application which is used to maintain Inventory Stores of the client. Whenever new devices or accessories arrive in inventory their IMEI, model no etc is maintained there. Various statuses of devices like sold, ready, warranty is also maintained. It also provides user various features to make operations over inventory like device model search, creating purchase order, generating count sheet of devices etc.

**Responsibility** : Involved in requirement gathering, development and Unit testing.

**Language** : Java  
**Web Technologies** : JSP,HTML,JavaScript  
**IDE** : IntelliJ Idea  
**Framework** : Spring  
**Databases** : Oracle

**Project 3:**

<b>Project Title</b>	<b>SCOUT</b> (Released to Android Market)
<b>Industry</b>	Communication Media & Entertainment
<b>Client</b>	C Spire
<b>Duration</b>	June 2011 - November2011

**Project Description:**

The project involved the development & testing of an Android App that helps customers in getting apps based on their interests. At the time of registration it asks user to provide answers for few survey questions and recommends apps accordingly. The User can share these apps with his friends through facebook, Gmail, sms etc. This app also provides reviews for recommended apps by C Spire reviewer team. A User can also become a Star User and can give his own reviews and can be followed by others. Every time user downloads recommended apps and shares them, he will be given perk points .

**Responsibility** : Involved in requirement gathering, development and Unit testing.

**Language** : Java  
**Data Representation** : XML  
**IDE** : Eclipse  
**Framework** : Android  
**Databases** : SQLite
